

## NEW CHRYSLER & AMC HYDRAULIC LIFTER PROFILES

GRIND NUMBER	LIFT 1.6 Rockers	LIFT 1.5 Rockers	LIFT At Cam	DURATION @ .008" lift	DURATION @ .050"	DURATION @ .200" lift
K-52HYD	.489"	.458"	.305"	254°	209°	
K-54HYD	.501"	.470"	.313"	255°	214°	127°
K-56HYD	.538"	.504"	.336"	272°	224°	140°
K-58HYD	.549"	.514"	.343"	280°	233°	148°
K-60HYD	.570"	.534"	.356"	285°	238°	152°
K-62HYD	.575"	.539"	.359"	294°	244°	156°
K-64HYD	.594"	.557"	.371"	298°	249°	162°

K grinds are new aggressive profiles designed for .904" diameter lifters and larger for use in high performance street & strip applications Chrysler, AMC, Volkswagen, These Profiles will not fit a GM, or FORD unless you use mushroom lifters. When ordering please specify which profile you want on the intake, which lobe you want on the exhaust. What lobe separation you want ground into the cam, and how much advance or Retard you want the cam ground to. EXAMPLE= 1 K-58/60HYD on 114° ground 4° advanced for an AMC V-8. This will be a K-58HYD lobe on the intake, the K-60HYD lobe on the exhaust with 114° of lobe separation ground with 4° advance.
